## Custom Work Positioners

---

Handling Specialty is the global leader in the design, manufacture and installation of engineered-to-order solutions for the material handling and MRO industries. Handling Specialty combines best-in-class engineering, manufacturing and controls integration to create state-of-the-art turnkey solutions to help our clients increase productivity, improve safety and reduce operational costs.

Handling Special's custom work positioners can be customized to add an additional axis of rotation on the load beam, which allow the operator to easily position the weldment into the most optimal hand welding positions. Custom work positioners can safely and quickly rotate and manipulate weldments for optimum welding comfort, access and position.

Custom work positioners are also available with elevating options for maintaining a precise, constant centerline. These units can also be rail mounted to accommodate varying part lengths. Handling Specialty's highly skilled work force and relentless commitment to quality delivers creative solutions, robust equipment, turn-key installations, onsite training and long-term professional support.

*We Build Big Things to Help our Customers Build*

# Custom Work Positioner Applications

- Heavy welding industrial
- Robotic welding, cutting and assembly
- Production welding
- Laser applications (welding, cutting)
- Component assembly
- Cleaning
